

District Leadership Team

Agenda

District Office

April 15, 2016

1:30

- Superintendent Search Update—Tom said the Board is working on hiring the next superintendent and asked for feedback about the process. Feedback included the following:
 - committee should not have been forced to give a certain number of positives and negatives about each candidate:
 - too rigid—would have preferred ability to ask follow up questions and to phrase questions differently for internal candidates;
 - internal candidates should have been spoken to before the second round of interviews were held.
- Additions to Budget—Lois shared that the Board will be discussing possible additions to staffing/program at upcoming board meetings. We discussed the issue of whether items added this year would be the first to go next year.
- Legislative Grant—Lois shared that the Board requested feedback from the leadership group about how to use this \$9000 grant. District Council suggested using for either a new High School football scoreboard or for new sound equipment for the High School auditorium. The Leadership Team felt both were good ideas and the money should be split between the two.
- Sidewalks Initiative—Lois shared the petition and told the Committee about a meeting that has been organized by Kelly Libolt to include several local politicians to discuss the need for sidewalks. It is being held in district office and Tom, Michele, and Lois will be attending.
- Next Meeting—June 3, 2016 in District Office
